

# Join the CACI Team!

CACI International Inc is seeking tech savvy professionals to help us support multiple programs with the Department of Homeland Security.

The DHS Continuous Diagnostic Monitoring Program defends the United States (U.S.) Federal Information Technology (IT) networks from cybersecurity threats by providing continuous monitoring sensors (tools), diagnosis, mitigation tools, and associated services to strengthen the security posture of Government networks.

The Transportation Security Administration (TSA) Impact Program supports the IT Management, Performance Analysis, and Collaborative Technologies (IMPACT) contract. CACI will provide a variety of IT services through IMPACT including cybersecurity, identity and access management, risk management, cloud integration and engineering, field support services, service desk, application deployment and optimization, and operations center support services.

We are hosting a hiring event in your area. Don't miss this great opportunity to meet with our hiring team and learn more about us!

## We are currently accepting applications for the following:

- Information Security Professionals and Engineers (IAVM, Continuous Monitoring, RMF)
- Systems Administrators
- Dashboard Administrators
- Web/SharePoint Developers
- Splunk Engineers
- Security Test Engineers
- Tier I, II, and III Engineers
- System Engineers
- Systems Analysts
- Network Engineers
- Oracle Database Administrators

All positions require the ability to obtain DHS Entrance on Duty (EOD) and the ability to obtain an active security clearance. Clearance level will vary by position.
