

Join the CACI Team!

CACI International Inc is seeking tech savvy professionals to help us support multiple programs with the Department of Homeland Security.

Do you have a passion for cyber security and protecting our homeland security? As part of this team, you'll help defend the United States Federal Information Technology (IT) networks from cybersecurity threats by providing continuous monitoring sensors, diagnosis, mitigation tools, and associated services to strengthen the security posture of government networks.

The DHS Continuous Diagnostic Monitoring Program defends the United States (U.S.) Federal Information Technology (IT) networks from cybersecurity threats by providing continuous monitoring sensors (tools), diagnosis, mitigation tools, and associated services to strengthen the security posture of government networks.

We are currently accepting applications for the following:

- Information Security Professionals and Engineers (IAVM, Continuous Monitoring, RMF)
- Systems Administrators
- Dashboard Administrators
- Web/SharePoint Developers
- Splunk Engineers
- Security Test Engineers
- Tier I, II, and III Engineers
- System Engineers
- Systems Analysts
- Network Engineers

All positions require the ability to obtain DHS Entrance on Duty (EOD) and the ability to obtain an active security clearance. Clearance level will vary by position.
