Business Associate Rotational Program

2-year rotational program designed to provide talented and highly motivated graduates with first-hand experience in fundamental or quantitative research within Asset Management.

Program Features

• Four six-month rotations across a range of asset classes and groups, including equity, high income, fixed income, and asset allocation.

• Complete the program in one of two tracks – quantitative research track or fundamental research track.

• Successful associates have the opportunity to be placed in a permanent position based on their interests and business needs upon program completion.

Qualifications:
Class of 2020 Bachelor’s or Master’s degree candidates

Location:
Boston, MA, with at least one rotation in Smithfield, RI or Merrimack, NH as needed

Application Window:
August 12, 2019 - August 25, 2019
