PGY-1 Managed Care Residency, Specialty Innovation

Selection Process

PLEASE SUBMIT THE FOLLOWING MATERIALS THROUGH PHORCAS BY FRIDAY, JANUARY 3, 2020

- Basic demographics
- Curriculum vitae
- Three letters of recommendation — two from health professionals related to pharmacy curriculum (instructors) or the reference writer can use the standard form in PhORCAS
- Written statement summarizing why you are pursuing this residency at CVS Health® and detailing your career objectives
- Official transcripts from each college attended
- Extracurricular information
- Professional writing sample

UPON RECEIPT OF MATERIALS, YOU MAY EXPECT

- A telephone interview with members of the residency committee (mid-January)
- A web-based panel interview where you may be requested to present a 15-minute PowerPoint on a managed care-related topic of your choice

REQUIRED RESIDENCY ACTIVITIES

- Complete and present a managed care residency project suitable for publication
- Present a residency project at a national pharmacy meeting
- Successfully complete projects within rotation areas
- Participate in training programs to enhance technical, professional and personal skills

Program Objectives

The CVS Health Specialty Pharmacy Residency Program provides a unique opportunity to work with a premier specialty pharmacy provider, while increasing knowledge of specialty pharmacy practices. The resident will interact with a multitude of internal areas, including clinical development, performance management and training, pharmacy operations, analytics and outcomes, marketing and sales and strategy development.

PURPOSE STATEMENT

To build upon the Doctor of Pharmacy (Pharm.D.) education and outcomes to develop managed care pharmacist clinicians with diverse patient care, leadership and education skills who are eligible for board certification and postgraduate year two (PGY2) pharmacy residency training. A managed care residency will provide systematic training of pharmacists to achieve professional competence in the delivery of patient care and managed care pharmacy practice.

AT THE CONCLUSION, THE RESIDENT WILL BE ABLE TO

• Understand specialty pharmacy’s role in managing the needs of patients with complex, rare or genetic disorders that require treatment with specialty medications
• Develop, implement and manage specialty clinical programs that optimize clinical outcomes
• Create effective utilization management programs
• Identify, develop and implement pharmacy process improvement and training programs
• Analyze market research to monitor and assess market trends that impact the specialty pharmacy business, including but not limited to, new drugs or drug technology, disease state management, pharmacy, nursing, managed care, patient care and clinical services
• Proactively analyze data to identify opportunities for additional pharmacy management services
• Design outcomes analyses that demonstrate the value of specialty pharmacy
• Understand the impact of the pharmaceutical pipeline on operations, program development and client spend and trend

• Interact directly with clients, consultants and internal sources and make recommendations that help manage and improve clients’ health care costs
• Understand specialty pharmacy operations, including pharmacy care management and dispensing processes

CANDIDATE REQUIREMENTS

• Focused interest in managed care and specialty pharmacy
• Creative and innovative mindset
• Excellent communication and presentation skills
• Knowledge of Microsoft Office Suite®
• Strong analytical skills; ability to evaluate large data sets
• PharmD candidate from a U.S. accredited program
• Massachusetts and Rhode Island licensure (or eligible)
• Desire to learn and commit to a one-year structured training program
• Travel for client meetings, training programs, and professional meetings and conferences
